How We Can Help You

Bubble Wrap and Recyclabubble®

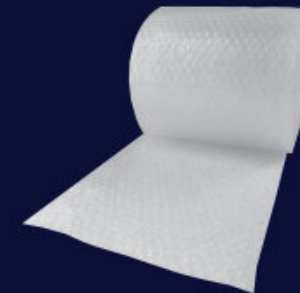

We manufacture bubble wrap rolls and convert these into a variety of products, including;

- Bubble Tubing,
- Self Seal Bubble Bags,
- Double Laminate Bubble Bags,
- Anti-Static Bags,
- Metalised Bags.

Recyclabubble® has at least 30% recycled content and is available in our range of bubble based products.

We can provide you with bespoke protective packaging to meet your specifications.

Bubble Rolls

- Small or large bubble versions.
- Range of stock sizes available.
- Contain 30% recycled content.

Insulation Bags

- Perfect for temperature controlled requirements.
- The layer of bubble and metalised film help to maintain your products from the outside environment.

Bubble Bags

- Available with or without a self seal adhesive lip.
- Stock or bespoke sizes to meet your requirements.
- Can also be made from anti-static material or double laminated.

Need A Box Maker?

All In One Packaging Service

Our packaging service can take care of your packaging requirements, leaving you to concentrate on the other important aspects.

We can supply a regular delivery of bespoke cardboard boxes, as well as all the other packaging products you use.

Design

We create the optimum box for you, either a bespoke design or a FEFCO style which meets your needs.

Sample

A sample allows you the chance to see an example of the finished product, to test it, modify it and when you are happy with it, approve it.

Manufacture

When you have approved the project, we will begin making it to the desired specification.

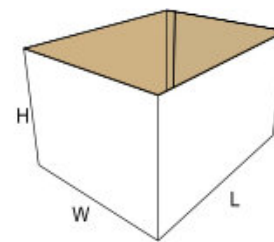

Ship

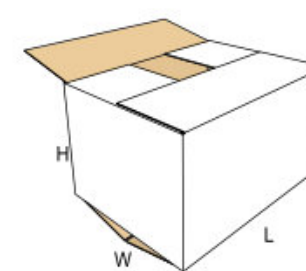

Once complete we will ship the order. This can be to your own sites, your customer's (on white labels if required) or as part of a call off schedule if agreed earlier.

Step 1 - Pick Your Box Style

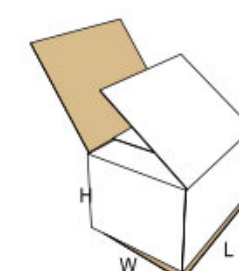

The most popular box styles are shown below, if yours is not shown, we can make a full range of FEFCO styles.

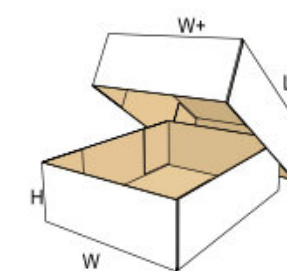

0200

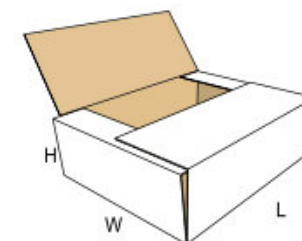

0201

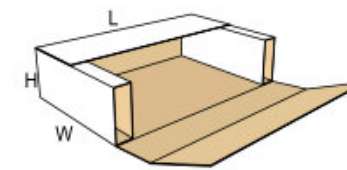

0203

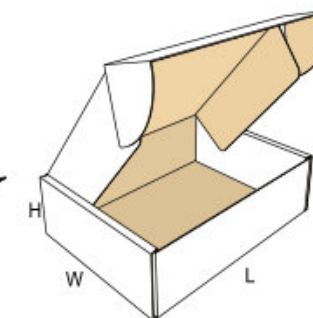

0300

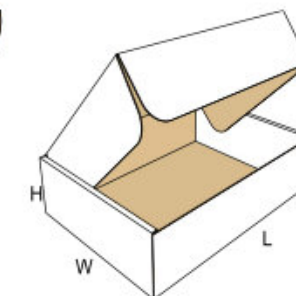

0401

0403

0427

0429

Step 2 - Pick Your Cardboard Grade

Depending on the weight of your product and method of transport used for delivery we will help determine which board grade is most appropriate.

Single Wall - B125KT - Suitable for lightweight requirements, constructed from a single B flute with a kraft outer paper layer and a recycled paper inner layer.

Standard Double Wall - BC125KT - Can be used for shipping items up to 30kg comfortably through the postal system. Features an additional flute layer over the lighter grade single wall.

Heavy Duty Double Wall - BC300KT - Thicker papers on this version help to increase strength of the board. Ideal where the items are either heavy, or easily breakable and require a high level of protection.

Step 3 - Choose Your Quantity

Step 4 - Send Your Enquiry

Packaging Systems

We are partnered with key companies to provide on demand packaging machines. These include paper based, air bubble based and pallet wrap machines, offering you a range of methods to streamline your packaging process.

We Provide

To ensure we provide the best system for you, we carry out a site visit, look at what you are aiming to achieve and provide the appropriate solution.

This could be a yearly saving on pallet wrap consumables, a reduction in packaging materials used for sending goods out or a streamlined process which increases your dispatch rate per day.

We Offer

- Increased efficiency.
- Consistent packaging process.
- Expert guidance on the most suitable systems for your business.
- A reliable source of packaging consumables.

Paper

- All paper is FSC certified.
- Adds compression strength to parcels.

Several machines offering various advantages.

Chevron provides cylindrical tubes of paper. Perfect for void fill and small items.

Papillion is easily integrated to existing setups and is constructed from 2 layers of 20cm wide paper.

Air

- At least 50% Recycled content.
- Provide bubble protection to your breakables.

Save space on storage by using an inflate on demand system.

Range of machines include options to cushion, provide void fill, wrap or block and brace.

Pallet Wrap

- Increase pallets wrapped per day.
- Provides potential savings on film costs.

There are savings to be made if you wrap a high amount of pallets a day.

The machine can stretch the film and can use pre-stretch film. This can provide a reduction in the weight of film used but maintain a secure pallet.

Foam

Foam Conversion

We provide foam rolls in varying thicknesses and convert the foam rolls into bags and sheets.

If you use foam, contact ourselves and see how we can help your business.

Foam Bags

- 5 Stock sizes.
- Can be made bespoke.

Foam bags provide cushioning protection and will not cause abrasion to your product.

Foam Sheets

- Stock sizes available and can be produced to your size.

Foam sheets provide a way of stopping two of your items damaging each other.

These can be used as dividers, reducing the damage caused.

Packaging Supplies

- We can manage all of your packaging requirements.
- Take the stress out of your packaging supply chain.

Whether it is bespoke or stock items, we can either make your packaging, or supply your packaging and deliver it to you as you require. This allows you to focus on selling your own products.

Product Catalogue

Bubble Rolls

- Sold by the roll.
- Recyclabubble® contains 30% recycled content.
- Use as a void fill, or wrap your breakable items with our bubble.

SKU	Width	Length

 Double Wall BC Flute 300KT

Adhesive Tape

Tape Dispensers

Standard Dispenser

PG50B

- Suitable for 50mm wide tape on a 75mm core.
- Takes 66m and 132m length rolls.
- Adjustable brake.

Bonus Tape Dispenser

BT50B

- Takes 200m tape.
- For use with 25mm core bonus tape.

E Tape Dispenser

ET50B

- Takes 100m tape on 50mm core.
- Takes most 150m tape on 50mm core.

Pre-Set Tape Dispenser

SL3

- Variable tape lengths up to 200mm.
- Suitable for tape between 25mm and 75mm.

Enclosed Tape Dispenser

D250

- For use with 50mm wide crossweave tape.

Clamp On Bench Dispenser

CBD50

- Dual core. 2x25mm or 1x50mm wide tapes.
- No tools required.

Bench Dispenser

HMB50

- Metal construction, dual core bench dispenser.
- 2x25mm or 1x50mm.

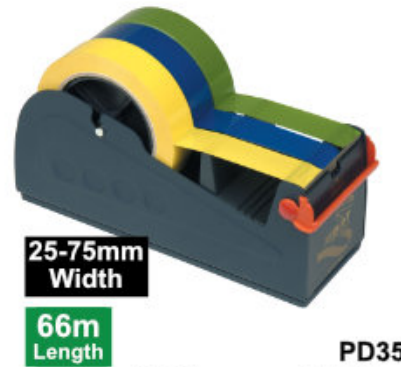

Heavy Duty Combination Tool

BD50

- Dual core, 2x25mm or 1x50mm.
- Can take 132m tape.

Trio Dispenser

PD351

- Use 3x25mm or 1x75mm wide tape.
- Takes 66m long tape rolls.

Parcel Tape

- A range of packing tape to suit all your needs when dispatching parcels.
- All supplied on 3 inch cores, suitable for use with handheld dispensers.
- Sold by the roll.

SKU	Description	Size	Colour	Rolls Per Box
25MM-S	25mm Solvent Tape	25mm x 66m	Clear	72
Techno-S-B	Techno Solvent	48mm x 66m	Brown	36

Techno-LN-B	Techno Low Noise Solvent	48mm x 66m	Brown	36
Techno-LN-C	Techno Low Noise Solvent	48mm x 66m	Clear	36

Vibac and 3M tape ranges are also available. **VIBAC 3M**

Printed Tape

- Message tape informs the handler to be careful with a particular parcel.
- 48mm x 66m. Sold by the roll.
- Bespoke tape available too.

SKU	Description	Adhesive
PT-FTS	Fragile	Solvent
PT-FTA	Fragile	Acrylic
PT-HWC	Handle With Care	Acrylic
PT-TWU	This Way Up	Acrylic
PT-R	Reject	Acrylic

Masking Tape

- Typically used where a low tack is required, providing the ability to remove when required. Ideal for artists, sign makers and kitchen fitters.
- 48mm x 50m. Sold by the roll.

SKU	Description	Rolls Per Box
MT24	24mm (1 Inch) Ivy	72
MT48	48mm (2 Inch) Ivy	36

Machine Tape

- Machine rolls are used on box sealing machines, where the longer roll reduces the amount of change overs.
- Sold by the box.

SKU	Description	Rolls Per Box
3M 371-38	3M 371 Clear 38mm x 990m	8
3M 371-48	3m 371 Clear 48mm x 990m	6

Adhesive Tape

Kraft Paper Tape

- Eco friendly tape made from a paper backing layer and acrylic adhesive.
- Tear by hand for easy application.

SKU	Description	Size	Rolls Per Box
Techno-Paper	Techno Paper Tape	48mm x 50m	36

Crossweave Tape

- Reinforced crossweave has two directional filament providing a very strong level of adhesion.

SKU	Description	Size	Rolls Per Box
CWT25	Reinforced Crossweave	25mm x 50m	36
CWT50	Reinforced Crossweave	50mm x 50m	18

Printed Tape

- Increase brand awareness.
- Minimum order quantity of 72 rolls.
- Range of adhesives.
- Print on polypropylene or paper tape.

Gummed Paper

Gummed Paper Tape - Plain

- Full range of gummed tape options, sold by the box.
- Strong adhesive and more environmentally friendly tape option when compared to traditional polypropylene backed tapes.

Gummed Paper Tape - Reinforce Print

- Use preprinted gummed paper tape as a method of seeing if your parcel has been tampered with.

SKU	Width mm	Length m	Message	GSI / GSO
KR7015-SENSEAL	70MM	152M	Sentry Seal	In

Gummed Paper

Gummed Paper Machines

- Paper tape machines are required if you are using gummed paper tape. The water tank applies water to the tape which activates the adhesive.

BP555

- Preset popular tape length buttons.
- Customise length to 12.7mm increments.
- Set a pattern of tape length for repeated box sealing.
- Set to GSI by default but can be altered to GSO if requested.

Specification	
Max Tape Width	76mm
Max Tape Weight	125gsm
Tape Applied From Water Tank	2500m
Tape Capacity	305m
Compatibility	Plain or Reinforced
	GSI & GSO

BP500

- Preset popular tape length buttons.
- Set to GSI by default but can be altered to GSO if requested.
- Max roll length of 200m

Specification	
Max Tape Width	76mm
Tape Capacity	200m
Compatibility	Plain or Reinforced
	GSI & GSO

BBP222

- Manually operated machine for on the go dispatching. No power source required.
- Push lever produces 254mm of tape, repeat process for extra tape.

Specification	
Max Tape Width	70mm
Max Tape Diameter	152mm
Tape Applied From Water Tank	114m
Compatibility	GSI

EPS80

- Entry level tape dispenser, pull the tape through as required.

Specification	
Max Tape Width	80mm
Compatibility	Plain only

Polythene Supplies

Compostable Bags

- Complies with EN 13432
- Designed to disintegrate in industrial composting conditions within 12 weeks.
- Can be home composted, but process will take longer.

Appearance

The bags are either a cloudy white, white or green. This means your product will not be showed off when inside, like traditional polythene bags.

To help differentiate between polythene bags and compostable bags, these have a print all over to inform the recipient of the qualities of this bag and help ensure the bag is disposed of correctly. The print reads as follows "Compostable for a better world...Material Conforms To EN 13432"

How to store?

Due to the nature of this product, it is vital that the product is not stored near heat sources, sunlight, or humidity. The product should be used within 6 months.

For best performance store between the following:

- Temperature: 17-23°
- Humidity: 35-55%

How to dispose?

The compostable bags are designed for disposal in industrial compost units, taking approx 90 days. You can compost the bags at home, but it will take more than 90 days.

If the bags end up in a landfill site, the lack of oxygen and moisture dramatically slows down the time taken to break down the product. This is best avoided for environmental reasons.

Compostable Bags

SKU	Width x Length	Micron	Pack Qty

30% Recycled Options

- Picking a 30% recycled product means you do not have the additional Plastic Tax applied to your item.
- A product with 30% recycled content in will have a slight grey colouring to it.
- Unfortunately products with recycled content in can not be used in direct contact with food or pharmaceutical uses.

Heavy Duty Polythene Bags

- 120 Micron / 500 gauge.
- Contain 30% recycled content.
- Ideal for heavy duty uses.

Packaging GB Shrink Gun

- Economical shrink gun, offering performance on a budget.
- 32kw of power.

Ripack 2100

- Entry level Ripack gun, produces 40kw of power.
- Cold nozzle technology means the diffuser remains cold to touch, helping to prevent burns.
- All Ripacks are supplied with regulator, hose and carry bag.

Ripack 2500

- Mid level Ripack gun, produces 34-60kw of power.
- Cover a wide surface area quickly with the lightweight R2500, providing fast, even shrink performance.
- Soft grip and absorbers for comfort while being used.

Ripack 3000

- Top of the range Ripack gun, produces 80kw of power.
- Can be secured with retractable tool balance.
- Tool free ignitor changes.

SKU	Power Output	Weight
Ripack 2100	40kw	920g

MPW23	500mm	23mu	1375m	175%

Dispensers

Pallet Wrap Dispenser

TMW

- Fits 400mm wide wrap on 38/50/78mm cores.
- Fits 500mm wrap on a 50mm core.

Blown or Cast Film?

- **Cast film** is generally clearer, making it easier to read barcodes through, but there is no added tackifier, meaning it can make loading lorries easier as pallets do not stick together. Not ideal for outside use where the wind could unwind the wrapping.
- **Blown film** has a tackifier added, creating a film which is suitable for outdoor use, but if pallets are packed close together, moving one pallet can cause others to move.

Pallet Cones

Do Not Stack - 100/Pack 

PC001

- Helps to protect your pallets by preventing double stacking.
- Highly visible printed graphics.
- 220 x 220 x 200mm

Saving MPS Semi-Auto Stretch Wrapper Power Stretch Film Carriage

- Table Ø 1650mm, 6mm plate, for pallets up to 1200x1000mm
- Capacity: up to 20 pallets/hour depending on load size
- Wrapping height: up to 2200mm (incl. pallet)
- Max. weight: 2000kg

FEATURES

- Powered film carriage for pre-stretch system (up to 250%)
- Suitable for power-stretch film.
- Photocell for automatic height detection.
- Soft start and stop by return inverter with return to start position.
- 4 Wrapping programs: Single, cross wrap, cross plus, full independently adjustable top and bottom reinforcement wraps.
- Wrapping cycle counter.
- Adjustable vertical film carriage speed.
- Adjustable tension and speed delay.
- Micro-processor controlled; display control panel.
- Optional extras; ramp, pit frame, hold down device.

Film	Stretch Polyethylene
Film Thickness	17-35micron
Film Width	500mm
Rotary Table Height	1650mm
Production Speed	Up to 20 pallets/hr (5.8rpm)*
Pallet Dims	Up to 1200x1000mm
Max Pallet Weight	2000kg
Pallet Height	2200mm
Air Pressure	N/A
Power Supply	240V, Single Phase, 50Hz
Power Consumption	1.2kw

Dimensions and specifications will vary according to customer requirements.
* Please note that different turntable sizes will run at different speeds.

Orbital Wrapper

- Orbital wrappers quickly wrap polythene around your products. The rotating pallet wrap application spiral wraps film around the items, perfect for elongated products, such as timber and window blinds.
- Various models available with diameters of 420mm, 620mm, 1000mm, 1400mm and 2000mm.

Features

- Cutting and clamping between cycles.
- In feed and out feed conveyor, help product stabilisation during wrapping.
- Foot pedal control.
- Power Supply - 230V 1ph.
- Pneumatic power 6 bar.

Shipping Labels

- Informative labels help to reduce damage to parcels and prevent handling errors.
- Sold by the roll.

Strapping Supplies

Strapping Codes

- PP** Suitable for use with Polypropylene
- PET** Suitable for use with Polyester
- ST** Suitable for use with Steel
- WP** Suitable for use with Woven Polyester
- CP** Suitable for use with Corded Polyester

Tensioners

- Tensioners for different types of plastic strapping.

Economy Tensioner

PP

TST30

- Entry level tensioner.
- Suitable for up to 19mm polypropylene.

Standard Tensioner

CP

WP

CST20

- Use on on corded and woven polypropylene.
- Suitable strapping width between 9-19mm.

Heavy Duty Tensioner

PP

PET

CP

WP

HPT50

- Use on polypropylene strapping.
- Provides strong strapping tension.
- Improved construction over entry level tensioner.

Sealers

- Sealers secure your seals to the strapping.

Standard Sealer

PP

SGP12

- Entry level sealer.
- Suitable for 12mm polypropylene.

Sealer With Grips

PP

PET

KNS12

- Offset jaws for easy sealing.
- Use with 12mm polypropylene.

Dispensers

Static Dispenser

PP

PET

PSD4

- Use on polypropylene strapping.
- Easily unravel as required.

Combination Tools

- All in one tools that tension and seal.

Standard Combination Tool

PP

SPC12

- Entry level combination tool.
- Suitable for 12mm polypropylene.

Heavy Duty Combination Tool

PP

PET

LPC12

- Use on 12mm polyester and polypropylene.
- Strapping thickness between 0.5-0.99mm.

Mobile Dispenser

PP

PET

PD40

- Use on polypropylene strapping.
- Contains seal tray for easy storage of tools.

Strapping Kits - Polypropylene

- Value for money strapping kits for polypropylene strapping.

Tensioner & Sealer Kit

PPSK1

Contains

- Tensioner.
- Sealer.
- 600m of strapping.
- 250 Seals.

Strapping Kit 5

Our most popular polypropylene starter kit, providing every tool you need to start strapping.

Contains

- Dispenser.
- Tensioner & Sealer.
- 2000m Polypropylene Strapping.
- 1000 Seals.

KIT 5

Combination Starter Kit

PPSK6

Contains

- Combination tool.
- 600m Polypropylene strapping.
- 250 Seals.

Combination Sealer Kit

PPSK7

Contains

- Combination sealing tool.
- 1500m Strapping.
- Static dispenser
- 250 Seals.

Strapping Kit 4

PPSK10

Contains

- Tensioner and sealer.
- 1500m Strapping.
- Mobile dispenser.
- 500 Seals.

Consumable Kit

PP

Contains

- 3 Reels of 2000m polypropylene strapping.
- 2000 seals.

Strapping Kit 6

PPSK20

Contains

- Combination sealing tool.
- 1500m Strapping.
- 500 Seals.
- Mobile dispenser.

Polypropylene Tools Kit

PP

P1212

Contains

- Sealer
- Tensioner

Polypropylene Hand Strapping

- Strapping reels on a plastic core, for use with hand strapping tools.

SKU	Width	Thickness	Length	Breaking Strain
300-003	12mm	0.5mm	2000m	130kg

Semi Auto Strapping Machine

- Use with 5-15.5mm wide polypropylene machine strapping on a 200mm core.
- Tool free roll change overs.

Specification	
Size	L780 x W540 x H750mm
Weight	56kg
Minimum Package Size	W100 x H30mm
Strapping Tension	Max 450N
Suitable Strapping Widths	5,6,9,12,15.5mm

IQ-400

Automatic Strapping Machines - JK5000

- Increase your strapping output, banding automatically wrapped around your product with the press of a button.
- The JK5000 is our entry level automatic machine and is designed for low volume usage.
- Available in two arch sizes, W650 x H400mm and W850 x H600mm.
- Up to 37 straps a minute.
- Compact design with reel fitting under the strapping table.
- Can be setup to use a range of strapping widths with an easy adjustment.

Specification	JK-5000
Size	W921 x W600 x H1436mm
Weight	115kg
Strap Width	5, 6, 9, 12mm*
Table Height	827mm
Strapping Tension	Max 330N
Cycle Time	Up to 35 / minute
Power Supply	100 - 240V Single Phase
Minimum Size	W60 x H30mm
Maximum Size	W620 x H480mm

*12mm strapping recommended.

JK-5000

Automatic Strapping Machines - SQ800

- We can supply a range of fully automated strapping machines to meet your needs.
- Available in two arch sizes, W650 x H400mm and W850 x H600mm. Further widths and heights available on request.
- Strapping rate of 55 cycles per minute.
- Uses a DC motor for cam shaft, meaning less moving parts and less maintenance required.
- Digital tension dial, with a capability to tension up to 450N.
- Adjustable table height.
- Foot bar for hands free operation.

Specification	SQ-800
Size	L1254 x W609 x H1403-1508mm
Weight	146kg
Strap Width	5, 6, 9, 12mm*
Table Height	794-899mm
Strapping Tension	Max 450N
Cycle Time	Up to 55 / minute
Power Supply	100 - 240V Single Phase
Minimum Size	W80 x H30mm
Maximum Size	W620 x H480mm

*Machines set to 9 or 12mm. 5/6mm strapping machines available on request.

Table height adjustment

SQ-800

Semi Auto Strapping Machine

- Use with 6-15mm wide polypropylene machine strapping on a 200 or 280mm core.
- Adjustable table height 730-930mm.

Specification	
Size	L905 x W586 x H760mm
Weight	75kg
Max Product Weight	120kg
Strapping Tension Min/Max	15-45kg
Cycle Time	2.5 Seconds
Power Supply	230V 50Hz

TAS200-AL

Enclosed Semi Auto Strapping Machine

- Use with 6-15mm wide polypropylene machine strapping on a 200 or 280mm core.
- Enclosed cabinet keeps moving parts hidden away.

Specification	
Size	L905 x W586 x H760mm
Weight	100kg

TRS600

Strapping Kits - Polyester

- Strapping kits for polyester strapping.

Combination Polyester Kit

EPK13

- Contains**
- Combination sealing tool.
 - 12.5mm x 1600m of polyester strapping.
 - 1000 Serrated seals.

13mm Polyester Tensioner Sealer Kit

Providing all the essentials for polyester hand strapping.

Contains

- Dispenser.
- Tensioner & Sealer.
- 12.5mm x 1600m extruded polyester strapping.
- 1000 Serrated seals.

EXPSK13

Strapping Kits - Woven Polyester

- Strapping kits for woven polyester strapping.

Mobile Dispenser Kit

Holds items without causing damage to your products. Use buckles not seals to secure in place.

Contains

- 13mm x 1100m woven strapping.
- 1000 Metal buckles.
- Mobile dispenser.
- Tensioner.

WPSK13

Extruded Polyester Dispenser

PET

PTD406

Contains

- Easily manage your green polyester strapping with our dispenser and tool tray.

Friction Weld Hand Strapping Tools

- Suitable for use with polypropylene and polyester strapping.
- Feature adjustable tension and sealing time.

GS1 & GSX

Tensioners For Steel Strapping

- Tensioners for steel strapping.

Standard 19mm Tensioner

ST

TLS20

- Suitable for strapping up to 19mm.
- For use on flat surfaces only.

Heavy Duty Round Pack Tensioner

ST

RP

- For up to 19mm strapping.
- Can be used on irregular surfaces.

Heavy Duty 19mm Tensioner

ST

FP

- Heavy duty 19mm tensioner.
- Use on flat surfaces only.

Sealers

- Sealers secure your seals to the strapping.

Single Notch Sealer

ST

TS12

- Available to suit 3 widths, 13, 16 and 19mm steel strapping.
- Only suitable for use with steel snap on seals.

Heavy Duty Single Notch Sealer

ST

SRD12

- Available to suit 3 widths, 13, 16 and 19mm steel strapping.
- Only suitable for use with steel lap over seals.

Sealless Combination Tool

ST

OHT

- Combination sealless tools are an all in one steel strapping tool.
- No seals required.
- Available in 3 widths.

Strapping Accessories

- Optional safety cutters and dispensers which will make using strapping easier.

Steel Strapping Cutter

ST

SSC06

- Entry level steel safety cutter.
- Will cut a maximum size 0.9mm x 32mm

Heavy Duty Steel Strapping Cutter

ST

SSC08

- Heavy duty safety cutter which can cut 1.2mm x 32mm strapping.

Mobile Steel Dispenser

ST

SD32

- Steel strapping dispensers will make moving the heavy coils around easier.
- Contains seal tray for easy storage of tools.

Strapping

Steel Strapping - Ribbon Wound

- Used to secure heavy stable loads due to limited elongation properties of steel.
- 0.5mm thick, sold by the coil.
- Spot welded to held prevent unravelling.

SKU	Width mm	Length m	Breaking Strain	Weight kg
RIB13	13mm	320m	560kg	16.5kg

RIB19	19mm	316m	850kg	25kg

Steel Strapping Kits

- All items required to manually strap using steel strapping.
- Choice of 13, 16 or 19mm steel strapping.

Contains

- Mobile dispenser
- Tensioner & Sealer
- 1 Coil of strapping 13,16 or 19mm
- 2000 Snap on Seals

RIB19KIT

Stainless Steel Strapping

- Best choice of strapping for prolonged outside uses.
- Used in marine and medical environments. Most commonly seen on roadside signs.

SKU	Width mm	Thickness	Length
SSB12	12mm	.726mm	30m
SSB19	19mm	.726mm	30m

Stainless Steel Buckles

- Knockdown buckles for use with stainless steel strapping only.
- Requires SBT tensioner.

SKU	Width mm	Seals / Box	Weight
SBK12	12mm	100	0.8kg
SBK19	19mm	100	1.3kg

Stainless Steel Tensioner

- Suitable for use with 12-19mm stainless steel strapping.

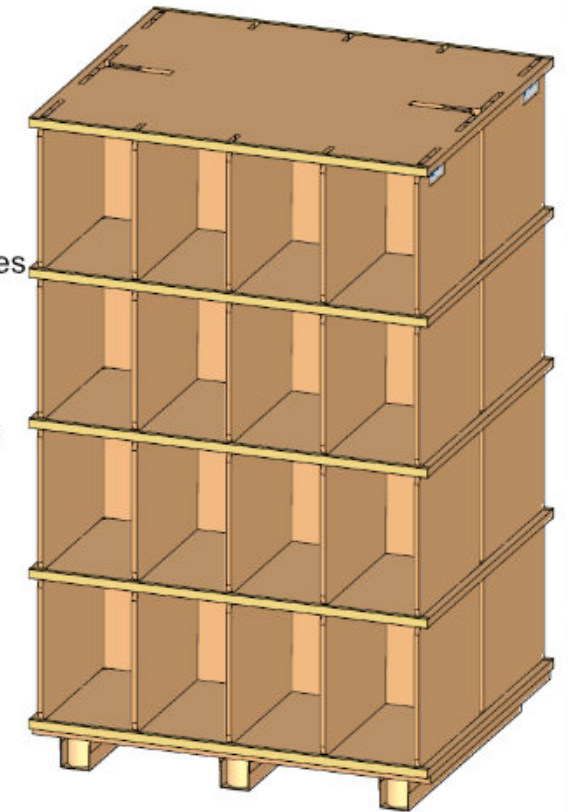

SBT

Cardboard Warehouse Storage Bins

- **Lightweight** - Move, rearrange and modify your pick locations as required.
- **Reduce Errors** - Small compartments for each item. Shelf edges can display barcodes or labels.
- **Save Space** - Change layout easily when demand requires.
- **Modify** - Add an extra shelf to each compartment.
- **Easy Assembly** - No tools required, cardboard shelves slot together.

Cardboard Shelving

Designed and manufactured in the UK, the pick location shelving is made from cardboard honeycomb material.

The unique material offers considerable strength, a 32 compartment unit can hold up to 500kg.

Easily move and rearrange with forklifts and pallet trucks.

XL Cardboard Pick Bins

- **Large Compartments** - Store bigger items in the XL Bin Box
- **Strong** - Each pick bin can hold 25kg.
- **Flexible** - Two bins per layer, with the ability to pick from both sides if required.

Visit Our Show Room To View The Picking Shelves For Yourself.

Make It Bespoke

- Having packaging which is designed for you can bring a range of benefits.
- Efficiency** - Increase packing speeds by utilising self seal strips or crash lock bases.
- Savings** - Have packaging which uses the right amount of material.
- Transport** - Do not ship unnecessary void fill.
- Branding** - Printed packaging can increase brand awareness.
